1958 N.F.A. Tourney To Be Held In Grayling

Expect 1,500 Archers To Shoot
With Total Crowd Near 3,000

Tourney Will Be In July, 1958

Approximately 1,500 archers are expected to participate in the 1958 National Field Archery Tourney, which will be held at Camp Grayling near the middle of July next year. The national tourney was awarded to Grayling at a banquet held at the end of the 1957 tournament which was held at Watkins Glen, New York.

Through the cooperation of the Michigan National Guard and particularly through the office of the Quartermaster General, Col. Herbert Layle, the use of Camp Grayling and many of its facilities have been offered to Grayling for use during the tournament.

The rules of the National Field Archery calls for a tournament every third year in the Midwest with 1958 being the year. The shoot has been held in Michigan before at East Tawas and East Lansing among other sites. Many archers consider the week-long tournament a vacation and bring their families with them. It is expected that about 3,000 people will be jammed into this area for that period.

The Crawford County Chamber of Commerce, the Grayling Sportsmen Club, and the Grayling Sportsmen Club will cooperate to put the tournament on. There will be archers here from every state in the Union. In the 1957 tourney, there were 300 archers from Michigan. With the state for next year's shoot right at home, it is expected that the state's total of archers will be a great deal higher.

Championships in the men's and women's instinctive division were won in the 1957 tournament by Jay Peake, 18-year-old Charlton, Pa., bowman and Mrs. Merle Wimer of Arlington, W. Va., at Watkins Glen this year.

The titles were awarded on the basis of aggregate scores shot in three separate rounds at the four-day National Field Archery Assn. tournament.

Peake had a record-breaking aggregate of 2,747. He won the field round with 886, the hunters round with 888 and the big game round with 975.

Mrs. Wimer had an aggregate of 2,092 for her first national championship.

The tournament saw 1,090 archers competing. Each had to shoot on 56 targets with a maximum 20 points each for a maximum total score in each round of 1,120.

No sights were allowed for those shooting in the instinctive division. Sighting aids were permitted in the other two divisions—the freestyle and the bowmen's.

Freestyle was the name of the contest. The Lock of St. Francis, Calif., state champion, was second behind Peake with 1,672.

Ann Corby of Boonton, N. J., was second in the women's division with 2,062. Frances Loeck, a dentist's daughter of Marine City, Mich., was third with 1,996.

Ann Marston of Wyandotte, Mich., captured the women's freestyle expert division crown with an aggregate of 1,380. Cleo Robertson of Sarnia, Mich., was second with 2,380.

Other division champions included: Dr. Bernard Zeeb, Lansing, Mich., freestyle men expert B, 2,166; Edward Johnson, Spring Lake, Mich., men archers, 1,318; Ralph Helzerman, Jr., Tecumseh, Mich., freestyle boys, 2,190.

Hospital Dedicated

Major General Gordon A. MacDonald, Commanding General of the 46th Division, Michigan National Guard is shown above as he addressed the crowd attending the dedication and corner-stone laying ceremony of the new Grayling Mercy Hospital last Sunday. In the background from left to right, may be seen Rev. John Breitenstein, Sister Marietta, The Right Rev. Monsignor Francis Kaminski, Sister Mary Stella, Fred Wohl, chairman of the hospital planning board, George A. Griffith, member of the board, Governor G. Mennen Williams, Mrs. Williams, the General, Mrs. MacDonald, and at the extreme right, Dr. C. G. Clippert, who was master of ceremonies for the occasion.

Praise for the "extra quality" of service by the Sisters of Mercy was the theme of Governor G. Mennen Williams' short talk as the new million dollar Mercy Hospital at Grayling was dedicated last Sunday afternoon.

The modern brick structure which is designed as a 50 bed institution is located on a 10 acre plot of land bordering the East Branch of the Ausable River on the eastern edge of Grayling. It is hoped to occupy the new hospital late this fall. It was said that this will replace the present wooden building on US-27, which has served this area for over 46 years.

The dedicatory rites were directed by the Rt. Rev. Msgr. Francis Kaminski, of Grayling, who blessed the cornerstone on Sunday's outdoor rites.

Some 1,000 persons were on hand for the services conducted by Dr. C. G. Clippert, of Grayling, long associated with the hospital. The rites marked culmination of a five-year effort to construct the new building, a project initiated by the late Dr. Claude R. Keyport.

Gov. Williams praised the sisters for "the amazing job of service they do" under difficult circumstances in the old building. He predicted they would perform a similar service in their new quarters.

Sister Marietta, hospital administrator, praised the community for its "support and courageous action." She reported on the cornerstone in the old building and itemized articles placed in the stone in the new building.

Also on hand for the ceremony were Merrill Hopper, past commander of the Veterans of Foreign Wars, representing U. S. Sen. Charles E. Potter, and Major Gen. Gordon A. MacDonald, aid, commander of the Michigan National Guard at Camp Grayling.

Gen. MacDonald said: "We always look to the sisters at Mercy Hospital here to caring for our sick and injured with skill and sympathetic attention."

Civic officials also participated in the rites. Hospital nurses lined up in uniform for the cornerstone blessing ceremonies. The Rev. Fr. John Breitenstein, former pastor of St. Mary's Church here and now pastor of the new St. Mary Magdalen parish in Grand Rapids, delivered the prayer.

Approximately 70 sport cars will be in Grayling in a group this coming weekend for a get-together, a banquet and time and economy tests in their trip to Grayling.

The line will be down US-27 and will take place between 6 and 6:30 p. m. in the parade line will be such cars as Volkswagens, Arnolds, Buicks, Porsches, Mercedes-Benz, Nash-Hispanias, Simcas, Alfa-Romos, Karmans, M.G.s, Acs, Abarts, Jaguars, Corvettes, Thunderbirds, Triumphs, Austins-Reals and many others. Most of these sport cars are imported but some are of American make. Included will be a Thunderbird Special which was reputed to have cost the Ford Motor Company about \$40,000 to build.

Arrangements for meals and lodging for the weekend for the group were made through the Crawford County Chamber of Commerce and secretary-manager Bob Hayes, with the aid and help of Grant Thompson.

The cars will arrive at various times between 8 p. m. Friday evening and 2 p. m. Saturday morning. Each driver drives against time and has a certain route to follow, keeping always within speed limits and within other traffic laws. They will be welcomed at Grayling Legion Post Hall where they will breakfast at 9 a. m. Sunday morning. The cars will undergo another time test in their homeward run.

On Saturday at the airport time trials, race practice and five races will fill the day from 8 a. m. to 4 p. m.

Fisherman vs. Canoeist

For sometime there has been a running argument that seems to be getting hotter and hotter about whether the rivers (primarily the AuSable) should be used by the trout fisherman or the canoeist.

It has been a subject for discussion by the Conservation Commission who were unable to come up with an answer during their first talk but are having the state laws combed for some type of reasonable solution.

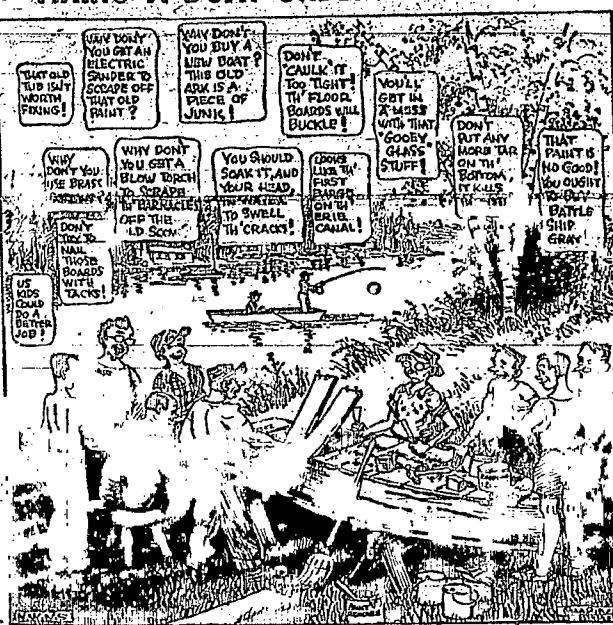

The people in this area know there is a problem. They also know that both fishermen and canoeists give this area a great deal of aid financially. Many of our families are dependent on one or the other or both.

We have personally observed extreme bad manners on the part of both canoeists and also fishermen (including the purists). The answer to this problem is like so many, many others... observation of the Golden Rule. Both sects have a right to use the river. The rivers of our state belong to the people and no one has a right to tell anyone how or when he can use this God-given natural facility.

However, a word to both the fisherman and the canoeist... you must respect the right of others. This river or any other was not put here for your sole benefit or the sole benefit of anyone person or group. If you are canoeing and round a bend and spy a fisherman, pass him as you would want him to if you were in his waders. We believe that many of our troubles in this modern hurdy-gurdy world are caused primarily by the refusal to think of the other fellow. If anyone doubts this, let him talk to a Justice of the Peace, a law officer or anyone connected with the shocking situation on our highways today. You'll find the trouble rooted in the denying of the rights of other people... thinking only of ourselves.—R. W. S.

College graduates, especially those with advanced degrees in certain engineering specialties, have been receiving starting salaries in industry that would have seemed fantastic a few years ago. W. Alton Jones of Cities Service Company makes this relevant comment: "To get a job is one thing... to make good on it is quite another. Success still does not go to those who want it delivered like a crown on a velvet cushion. If anything, the way to success is more difficult than ever, for the demands of progress keep incessant pressure on all industry. To get there first... to produce the best... to offer the most at the least cost—these are not only the objectives of industrial activity, but the factors of survival."

The summer recreational program was brought to a close when twenty-three boys and girls held a picnic at Kyle Lake last Friday. Swimming and games were enjoyed before the dogs were roasted and a baseball game was in order for the afternoon. Due to the abruptness with which the recreation program was started, few people knew of it. The first day the enrollment totaled only eighty-eight. During the last half of the schedule 211 young folks enjoyed its benefits, besides several visitors who asked to join in for a week or two. This program was under the able direction of Frank L. Bond, science teacher in our schools. He worked hard and it was largely through his efforts that the program was the success it proved to be. He richly deserves a lot of credit from the public for the manner in which this fine recreational program was handled.

Saturday was a big day for Crawford Grange when thirty-four guests from Manton came to assist in the afternoon's work. Nearly ninety were served at the dinner, held in the Odd Fellow Temple. Everyone reported having a very pleasant day.

Survey County For Post-Polio Patient Care

A countywide survey to discover the current rehabilitation needs of all post-polio patients will be conducted this month by the Crawford County Chapter of the National Foundation for Infantile Paralysis, John H. Peterson, chapter chairman, announced today.

The local survey is part of a nationwide project by the National Foundation to compile a roster of polio cases of all ages and degrees of disability, regardless of date of onset. The canvass here is to be completed by Sept. 1.

"Modern medicine has made impressive strides in developing new rehabilitation techniques in recent years," Mr. Peterson said. "Pilot surveys already undertaken show that there are thousands of polio-handicapped in the United States who have not yet had an opportunity for medical evaluation to determine if they might benefit from these new techniques."

"Some of the techniques employed today for the disabled by polio and other causes were unknown or unused as recently as 10 or even five years ago."

"The March of Dimes organization, having scored a tremendous victory in its war on polio, does not now propose to walk off and leave the wounded behind, so long as help for them is possible. We wish to find everyone who has had polio, whether paralytic or non-paralytic. We want to know what the special problems may be, so that they may be helped to regain useful lives, if humanly possible, even though it will take a considerable period of time."

Mr. Peterson said that the roster was to be made in close cooperation with the area Medical Society and member physicians. The Department of Public Welfare, Office of Vocational Rehabilitation, State Crippled Children's Service and county school systems also will cooperate. Information sought for each patient included whether he attended or attends school, if he can climb stairs and dress himself, whether he receives regular treatment and if he uses a respiratory aid. Information gained will be helpful to all such agencies and organizations.

Mr. Peterson asked that all persons who have ever had polio—whether disabled or not—and their names and addresses directly to the Crawford County Chapter, National Foundation for Infantile Paralysis, Grayling, Michigan.

Less Lung Cancer Locally

(Special to the Avalanche)

New York, Aug. 19—Figures have just been released by the U. S. Public Health Service showing the proportion of deaths from lung cancer and from other forms of cancer in Crawford County and in other parts of the nation.

It states that a time when there is concern throughout the country over the reported link between cigarette smoking and lung cancer. The American Society has issued data indicating a strong connection between the two based on a study of 188,000 men.

More recently, U. S. Surgeon General Leroy Burney corroborated this, stating "There is an increasing and consistent body of evidence that excessive cigarette smoking is one of the causative factors in lung cancer."

The new Public Health Service report shows the extent of this toll in each section of the United States for the 12 months ending January, 1956.

Among residents of Crawford County, it found, the number of deaths from cancer and other malignant growths came to 2 in the year. None of it was attributed to lung cancer.

Nationally, 4.4 percent of all cancer mortality was due to lung cancer and, in the State of Michigan, 12.7 percent.

Locally, the PHS report shows, the number of deaths due to all forms of cancer was more in proportion to population, than in most sections of the United States. The rate, among local residents was such deaths per 100,000 population, as against 145 per 100,000 for the nation. It was lower, also, than that of the State of Michigan, 142 per 100,000.

The cigarette smoking and cancer problem is causing great concern among the smokers of the country. They stand uncertainly between the pronouncements of the health and cancer groups on the one side, and the counter-claims of the tobacco industry. The industry contends there is no real evidence of a relationship. The "proof" to date, it claims, is only statistical, not scientific.

In the overall battle against cancer, encouraging results are reported by the American Cancer Society. Today, it states, one out of every three people afflicted is being saved, compared with only one in four years ago.

Approve Special Deer Seasons

Michigan's 1957 deer hunting regulations, as approved recently by the state Conservation Commission, provide for special seasons in 32 designated food shortage and crop damage areas.

The Commission action is subject to review by the legislative joint interim committee on administrative rules.

At its August 8-9 meeting at Higgins Lake, the Commission approved a plan for harvesting 18,450 deer of any age, either sex during the special seasons.

As in 1956, the special seasons would operate on an area and quota basis, with a total of 60,340 permits issued to hunters for the "any deer" seasons. Last year, 12,729 deer were taken by special season hunters.

The 1957 regulations include "any deer" seasons in five areas of the upper peninsula, 26 areas in the northern lower peninsula and one area in the southern lower peninsula.

Special seasons in all of the U. P. areas and in 13 of the northern lower peninsula areas would be concurrent with the regular November 15-30 "bucks only" season.

A December 1-2 season would be held in the other 13 northern lower peninsula areas and a December 1-8 season would be allowed for permit holders in the Aitken county crop damage section.

The number of special areas is increased from 22 last year to 32 this year to get a better distribution of hunters. Although the

Mac's, Nelson In Tie For Second

Kelsey Agency Moves Into Lead In County Softball League

By John Schofield Jr.

Kelsey Agency, the Roscommon entry in the Crawford County Softball League moved to the league leadership in the red-hot championship race. Mac's, the summer slipped all the way into a tie for second with Nelson Oil as they were defeated by the Oilers by a lopsided 16-2 margin. The schedule is now almost completed with rain-out games to be made up determining the final champion. Millikin remained in fourth place followed by AuSable Souvenir and Smuggin's. DeCaire's now trails seventh place Bear Archery by one game.

This year's post season playoffs will begin August 29 with first round matches on Thursday and Friday. This year's playoffs will be under the double elimination system rather than the single elimination as last year. A team must be beaten twice to be eliminated. The first time a team is beaten they are placed in a bracket, one loss in a loser's bracket game means elimination. The finals of the tournament are played between the final remaining team in the winners bracket and the final team in the loser's bracket and the championship is decided when one team or the other loses its second game of the tournament.

Managers should try to have all make up games completed to decide the final league standings by August 28. The schedule for first round matches will be as follows: Thursday, August 29 8:00-Bear Arch. vs. Nelson

Friday, August 30. 7:00-Mac's vs. Smuggin's 9:00-AuSable vs. Millikin Home teams to be determined by the flip of a coin.

Guard Champs Repeat

The 107th Engineers of the Upper Peninsula retained the softball championship of the 66th Division as they downed the 126th Infantry in the championship game at the Memorial Arena diamond under the lights last Monday night.

The Engineers, last year's champions, eked out a slim 4-3 victory in a ten inning overtime game. It was a pitcher's battle most of the way. The 126th was leading 3 to 2 in the seventh inning with two down for the Engineers and 2 strikes against the third man when the U. P. team came to life to tie the game.

IN MEMORIAM

In loving memory of our dear husband and father, Robert L. Jackson, who passed away three years ago, August 23rd, 1934. Days of sadness will come over us.

Tears of silence often flow, for memory keeps him ever near us, though he died three years ago, and his soul is still with us, and helps us to forget. But one so far has proven how much we miss him yet.

Sadly missed by wife Pearl and family.

temperature, weather, time of day, time of year, etc., etc. This acid is new to him and his scientific explanation of poor fishing opens up whole new realm of speculation. But the best thing about the "tannic acid theory" is that there are precious few fishers who, with the knowledge and inclination to refute the theory, or for that matter, even question it. Ho, ho, for science!

Now if someone would please tell me what is causing so many of the white pine to suddenly turn brown, I would be happy. Seriously, Jack Pine has four of these lovely big, forewings showing all signs of dying, and is considerably distressed about the matter. Any answers?

topped a field of six finalists in the annual competition to select the outstanding enlisted soldier of the field training encampment. The National Guard of the past would like to reduce or eliminate our state and nation's first line of defense force.

"Let me say to you that these men, poor as they may be in office and prestige, will not only make the country's policy, but they will also make the country's policy. That policy will be made by the men and women of Michigan and her sister states and by the past record of the Guard and by its future conduct."

"The reason I have gone into this thing is that you in uniform have a special way today to pay tribute to those we usually they loved the Guard for the sake of the country the Guard is dedicated to serve. The way you can pay tribute is to continue the Guard as the backbone of our country that it has always been."
